Evaluation: There will be homeworks, two partial exams in class and a 3-hours closed-book final examination. Your grade for the course is computed as follows: each test is worth 15%, the homeworks are worth 15% in total and the final exam is worth 55%. Please note:

- If your mark at the final examination is less than 40% or more than 90%, then your grade for the course is equal to the mark for the final examination.
- If you miss a test for a valid reason (approved by the teacher), its weight will be transferred to the final exam.

Help Center: A help center is available to you in case of unresolved issues with the material. From May 8 to August 20, the help center will be open from 10am to 3pm Monday to Thursday in Marion 021. The center will open the following Fridays: July 6, July 13, August 10, August 17.

Note: You are strongly advised to attend all lectures and to take notes. The material might be presented in a way that is different from the textbook. Also, the order might change. The DGD's are there to help you understand the material and the proposed exercises are similar of what you will be asked to solve in homeworks and tests.
